Profile :

Results-oriented Frontend Developer, Mehul Darshni, excels in creating exceptional user experiences using HTML, CSS, and JavaScript. Proficient in React and Bootstrap.

contributions to open-source initiatives like GSSoC and SSoC demonstrate their ability to develop projects from scratch, enhance front-end functionalities, and resolve bugs for smooth user experiences. Mehul's collaboration skills and proficiency in Git, GitHub, and npm enable effective teamwork and efficient project management.

With knowledge in data structures, algorithms, and object-oriented programming principles, Mehul develops scalable solutions. Their skills extend to hosting projects on GitHub Pages and Netlify. Additionally, their video editing and UI design expertise adds visual appeal to websites.
